FUN VALENTINE'S DAY FACTS:

- ♥ Teachers receive the most Valentine's Day cards!
- ♥ Valentine's Day falls each year on February 14th, and is a time to celebrate love, friendship and the joy of having other people in your life.
- ♥ Europeans began exchanging handmade cards with love notes inside as far back as the Middle Ages.
- ♥ People once believed the heart was where feelings were recorded, not the brain.
- ♥ French and Italian artists from the 14th century created the heart symbol we know today.

DEEP THOUGHTS:

This heart shape is divided into 10 pieces. Does each piece look the same size to you? What do you think makes it hard to divide a shape like this into equal pieces?
